# FAIR DATA AUSTRIA

RDM TRAINING AND SUPPORT SERVICES

TEREZA KALOVÁ

23.05.2022, SYMPOSIUM CLUSTER FORSCHUNGSDATEN

PROJECT GOALS

- Development of **training** and **support services** for efficient research data management

- Professionalization of **data stewards** who support researchers with data management
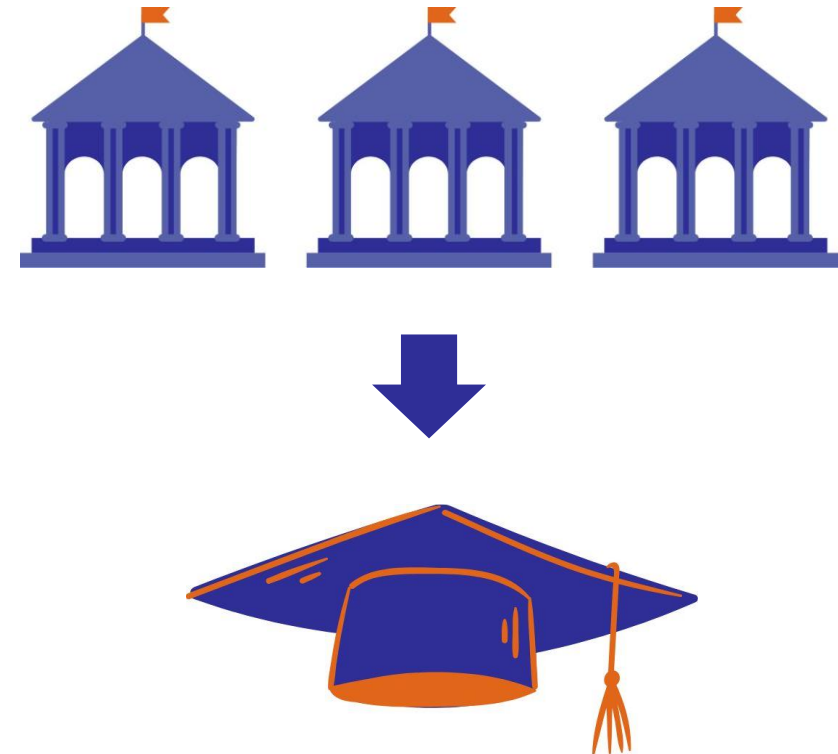

- Founding the **FAIR Office Austria**

"RDM TRAINING AND SUPPORT" TEAM

FAIR DATA AUSTRIA

RESEARCH DATA MANAGEMENT TRAINING

TRAINING: GOALS

- The FAIR Data Austria project focuses on developing interuniversity training that utilizes various media formats, is accessible, as well as widely available and (re)usable in the form of Open Educational Resources (OER).

TRAINING IN FAIR DATA AUSTRIA

Curated OER Collection

- Location and time-independent

- Suitable for self-study

Webinar Series

- "Research Data Management in Austria"

- Recorded talks in PHAIDRA and on YouTube

Institutional Training

- (Further) development of virtual

and face-to-face courses for researchers

OPEN EDUCATIONAL RESOURCES RDM

Open Educational Resources Research Data Management

Description: The collection of open educational resources (OER) on the following pages was created by the Training Task Force in 2021 as part of the FAIR Data Austria project (BMBWF, 2020-2022). The collection consists of selected OER enhanced by further information and interactive elements to provide an introduction to the following nine topics. The pages or the individual elements can be reused to create informational and training materials on research data management.

WEBINAR SERIES „RDM IN AUSTRIA" 06/2020-05/2022

Participants

- 18 webinars
- 68 participants/event

WEBINAR SERIES "RDM IN AUSTRIA"

- **How to Address Open Science in EU Projects** (English)
  9 June 2022, 10.00-11.30 am, online

- **Aus der Praxis: Datenmanagement an der ZAMG** (Deutsch)
  21 June 2022, 10.00-11.30 am, online

- **FAIRe Daten sind barrierefrei** (Deutsch)
  19 September 2022, 10.00-11.30 am, online

FAIR OFFICE AUSTRIA
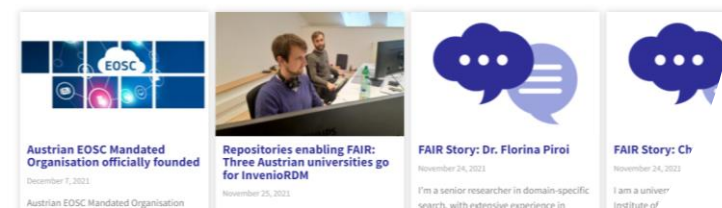

FAIR OFFICE AUSTRIA

We connect stakeholders from research communities and service providers. Together, we help to advance the FAIR principles.

- Founding team and Consortium: TU Wien, Graz University of Technology and University of Vienna

- Support for researchers at partner institutions

- Support for service providers

- Monitoring of FAIR processes in Austria

- Since June 2021: FAIR Office Austria is GO FAIR National Support and Coordination Office

DATA STEWARDSHIP

DATA STEWARDSHIP: GOALS

| Data Stewardship Models |
|---|

Tasks

Competences

Training

IMPLEMENTING DATA STEWARDSHIP IN AUSTRIA

October 2020: 1. workshop **"Data Steward Models at Universities"**

Goal: A common understanding of roles and tasks of a data steward in different institutional contexts

Outcome: 3 models
- Service point
- Data Steward Center/Office
- Data Steward Network –Data Stewards at faculties and coordinator

April 2021: 2. workshop **"Data Steward Competences"**

Juli 2021: 3. workshop **"Data Steward Education and Training"**

- Full reports available at: https://forschungsdaten.at/en/fair-data-austria/materials/

CERTIFICATE COURSE DATA STEWARD

- **Part-time further education program** based on the certificate course "Data Librarian"

- Designed at the University of Vienna based on the results of the FAIR Data Austria project and similar programs (such as Zertifikatskurs FDM)

- **Workload**: 5 modules/2 semesters

- **Diploma**: Certificate of the University of Vienna (15 ECTS)

- **Planned start date:** October 2022

- **GOAL: To prepare existing and new staff for the challenging new roles of data stewards**

Participants
- ca. 20

Target Groups
- Researchers
- PhD students
- Research support staff (e.g. library, IT)

Prerequisites
- Master's degree
- OR a high school diploma/completed apprenticeship + relevant work experience

NEXT STEPS

NEXT STEPS

- Organizing further **webinars** in the "RDM in Austria" series as well as 3 more **Carpentries workshops**

- Publishing an **adaptable LiaScript** version of the **OER** collection on GitHub

- Growing the **RDM trainer network** in Austria with the "Training Sandbox" = peer feedback for RDM training courses
