# DESIGN OF THE RIS SYNERGY NETWORK

# EXCHANGE FORMAT / STANDARDS

- OpenAIRE Guidelines for CRIS Managers
  - <https://guidelines.openaire.eu/en/latest/index.html>
- XML-profile for the exchange of the most important entities in research information systems (publications, projects, persons, etc.)
- Based on CERIF (Common European Research Information Format)
  - Uniform data format + research classification system to facilitate exchange between CRIS (Current Research Information Systems).
